VALUE
EDUCATION

Definition of Education

The definition of education in common usage, that education is merely the delivery of knowledge, skills and information from teachers to students, is inadequate to capture what is really important about being and becoming educated.

VALUES

What is a value?

- Qualities, characteristics, or ideas about which we feel strongly.
- Our values affect our decisions, goals and behavior.
- A belief or feeling that someone or something is worthwhile.
- Values define what is of worth, what is beneficial, and what is harmful
- Values are standards to guide your action, judgments, and attitudes.

What things did you do during the past week.

- What you choose to do with your time also has everything to do with what you values.

Hypocrite – One who subscribes to one set of values, and does another.

Immaturity - One who has not identified his values.
